### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 3 July 2008 has been entered.

### ***Election/Restrictions***

In response to applicants' request for rejoinder of claims 14-17, said claims are directed to a distinct statutory class vis-à-vis claims 4, 12, 13, 18, and 19, which are method claims. As such, the requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1618

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 12, 13, 18, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. 2006/0088494 ("Lendlein").

Lendlein teaches a composition used for recallable hair transformation (see abstract) comprising:

- natural zein (see paragraph 0021) at a concentration of 0.1 to 15% (see paragraph 0024), reading on instant claim 18;
- used for restructuring (see paragraph 0013), reading on instant claim 18;
- the 60 minutes (1 hour) of instant claim 19 (see paragraph 0073);
- the noxae of instant claim 4 (see paragraph 0013);
- the solution of instant claim 12 (see paragraph 0024); and
- a temperature range of 20-40 degrees Celcius (see paragraph 0015), reading on instant claim 0015.

Lendlein explains that the disclosed method is beneficial for, "...providing a recallable hair transformation...enabling a high degree of recovery of a once-programmed hairdo." See paragraph 0003.

In the case where the claimed ranges "overlap or lie inside ranges disclosed by the prior art," as is the case between Lendlein and the instant application, a prima facie case of obviousness exists. In re Wertheim, 541 F.2d 257, 191 USPQ 90 (CCPA 1976); In re Woodruff, 919 F.2d 1575, 16 USPQ2d 1934 (Fed. Cir. 1990).

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to disclose a method for improving the condition of hair with natural zein, as taught by Lendlein. One of ordinary skill in the art at the time the invention was made would have been motivated to make such a composition because it is useful in providing a recallable hair transformation, enabling a high degree of recovery of a once-programmed hairdo, as explained by Lendlein.
